Food, Drug and Cannabis Safety Branch
Export Document Program
1500 Capitol Ave, MS 7602
Sacramento, CA 95814-7435

Dear Export Document Customer,

Effective, January 14, 2020, “Pet Food” and “Seafood” product types, will no longer be an option on the Export Document Application. These product types will now fall under the “Food” category. Firms that export Pet Food or Seafood products will now be required to select the “Food” option on the application. **Note:** When creating new Export Document applications in the EDA system, online account users, will no longer be able to use the “renew” or “copy” option to transfer information from previous applications that include Pet Food or Seafood products.

The Export Document Program is dedicated to providing good and timely export document service to the California food, drug, medical device, and cosmetic exporters. If you have any questions, please contact us by email at FDBExports@cdph.ca.gov or by phone (916) 650-6500.

Thank you,
FDB Exports
